

**COLLEGE ARCHIVES
FOOTBALL FILMS COLLECTION, 1937-**

**SKILLMAN LIBRARY
LAFAYETTE COLLEGE**

The Football Films Collection consists of two different accessions. The films are arranged by accession, format (16 mm films, VHS tapes, mini dv's, DVD's, etc.) and then in chronological order. If a researcher is looking for a particular game but does not see it in the inventory, it is suggested they view the inventory for the undated games which will appear at the end of each format.

The first accession of films from 1937-1980 (Boxes 1-41) consists of reel to reel films and contains no other formats.

In the second accession of films from 1981-2011 (Boxes 42-64), the films are arranged by format into series (16 mm films, VHS tapes, mini dv's, and DVD's). Games may consist of two reels of offense and two reels of defense, but can include a fifth reel for the kicking game. The number of reels for each game is indicated next to the game. Most of the VHS versions of the games are for the wide angle master, although some will be the tight angle master if no wide angle master exists.

Many seasons compiled a highlight film, video, or DVD. These will appear at the end of each format and are often spelled as "hilite" or with other variations.

Films dating from seasons 1960, 1961, and 1962 have been digitized and are available for streaming: <https://archives.lafayette.edu/footballfilms/>

16MM FILM REELS

Accession No. 1, 1937-1980
